FAMILY TRAVEL

Family Vacation, those two words often conjure up conflicting emotions. One the one hand, we envision a time of family bonding, togetherness and the opportunity to create lifelong memories. No sooner has that thought developed and our minds move to the chaos of traveling with children, a whirlwind of activities and the stress of pleasing everyone, all of the time.

The truth is, family vacations should be relaxing. The whole idea is to reduce stress and promote family togetherness.

CocoLaPalm in Negril, Jamaica, is about family vacations, we like to think of the experience as "Memories for a Lifetime" and we understand that often times 'less is more'. Less sensory overload, more authentic family time. How?

- Introduce your children to a new culture, and learn about it *together*.
- Learn to appreciate new foods, *together*.
- Walk a hard packed white sand beach and play in our crystal clear water, *together*.
- Experience a night sky that is indescribably beautiful, *together*.
- Snorkel or scuba dive and experience the underwater water world, *together*.
- Relax, because CocoLaPalm Resort is small enough to ease 'watching the kids'.
- Get a great tan, if you want (or have your chair placed under one of our seagrape trees if you don't) while the kids swim or build sand castles on the beach
- Acquire an appreciation for the natural beauty of our great Island, *together*.
- Bond

Want more activity? No problem 'Mon';

- Enjoy Live music up and down beach (remember it's our main street)
- Go Para sailing on the beach
- Schedule a Tour of the island and check out our waterfalls
- Shop at our Resort, or discover the treasures at the local market.
- You can even stay connected with friends at one of our internet stations.

No wild rides, no expensive souvenirs, no elaborate game rooms. CocoLaPalm is about beach, water, great service and wonderful food and time together. After all, CocoLaPalm is "family owned" and "family operated". We respect family and good family fun! Visit us and you'll understand why.

p.s. Tell your friends back home to watch our live webcams, they can even see you
